

SRA newsletter August 2016

An application to build a housing estate in full view of St Mary's Church has been submitted by Taylor Wimpey. Your URGENT help is needed to ensure the application is rejected.

Reasons to object

1. Lydiard Park is a significant asset. This development would occur within 'the essential setting' of the Park and will destroy the historic, rural environment
2. Lydiard Park is a special place. It is not just another green space under threat - it is our Heritage, a 'country park' not an 'urban park.' We must fight hard to keep it that way
3. The application is outside the Local Plans for both Swindon and Wiltshire Councils; plans that have been agreed by the people
4. The Local Plans cost the taxpayer hundreds of thousands of pounds to compile and state that no further houses should be built to the west of Swindon
5. This is a 'Trojan Horse' application. If approved, many more fields around Lydiard Park and all the open space between West Swindon and Lydiard Millicent will fall to developers

You can register your objection online by copying and pasting this web link:
