Our Ref: letter

10 05 2018

Dear Ms Adams

Ref: S/18/0460 Sparcells Drive

Following a meeting of West Swindon Parish Council's Planning & Environment Committee on Wednesday 09 May 2018, the Council is recording an objection to application S/18/0460 and requests that this is called in to Swindon Borough Council's Planning Committee. This is on the grounds of the previous correspondence submitted by the Parish Council.

The Parish Council has also received correspondence from residents that voices concerns that residents have not been consulted on any proposals to remove the toddler play area prior to this application. The Parish Council has received no communication from the applicant in relation to the proposed removal of the play area or in relation to any potential reposition or re-provision. This is a popular and valued local amenity with no alternative provision locally.

The Parish Council has communicated concern in relation to whether sufficient parking is proposed. This is further supported by residents correspondence to the Parish Council.

Ref: S/18/0461 Pilgrim Close

Following a meeting of West Swindon Parish Council's Planning & Environment Committee on Wednesday 09 May 2018, the Council is recording an objection to application S/18/0461 and requests that this is called in to Swindon Borough Council's Planning Committee. This is on the grounds of the previous correspondence submitted by the Parish Council. The Parish Council asks that there is due consideration of securing reasonable parking provision, mitigating the impact of reducing existing parking provision at this site and amending the application to resolve these issues.

If I can assist further, please do not hesitate to contact me.

Kind regards

PHarrison

Paula Harrison
Parish Manager, West Swindon Parish Council
